KITCHEN CATALOGUE

HOBS | HOODS | OVENS | STANDING COOKERS

INDUCTION HOBS FEATURES

SENSOR TOUCH CONTROL

Effortlessly adjust cooking settings with precise, responsive sensor touch control.

9 COOKING LEVELS

It varies from the lowest temperature level 1 to the highest temperature level 9.

TIMER CONTROL

Built in timer of up to 9 hours 59 minutes (Automatic cooking timer, minute minder, and count up function).

FAST HEATING

Operate at maximum power to reach selected power level rapidly.

BOOSTER, DOUBLE BOOSTER

Operate above the nominal power for maximum 5 minutes. Double Booster function supplies even more power than Booster.

BRIDGE FUNCTION

Combines two adjacent cooking zones to create a single, continuous heating zone that accommodates larger cookware.

GENTLEHEAT

For warming or melting foods such as butter, sugar, chocolate. Select warming function key to control.

PAUSE FUNCTION KEY

Suspends the heating elements and temporarily stops the cooking operation without interrupting the overall process.

CHEF COOK FUNCTION KEY

Each zone is prepared to begin cooking instantly upon placing a compatible pan on it, operating in standby mode. The selected power level is intelligently stored in memory for future use.

CHILD LOCK

The child lock function locks the touch control keys against unwanted activation.

RECALL FUNCTION

Resumes the cooking with all the previous settings before it was switched off.

PAN DETECTION INDICATOR

Cooking zone will automatically detect suitable cookware. A visible symbol blinks to indicate no cookware or incorrect cookware used.

RESIDUAL HEAT INDICATOR

When the cooking zone is still hot, the indicator lights up to alert you of the hot surface. Avoid touching the hob surface.

AUTOMATIC SAFETY SWITCH OFF

Switches off the cooking zone after a preset period of inactivity.

OVERFLOW SAFETY DEVICE

The overflow safety device automatically shuts off the power when the liquid boils over onto the control.

USER MENU SETTINGS

Modify and customise the settings for acoustic signal volume, duration, and display brightness, etc.

INDUCTION HOBS

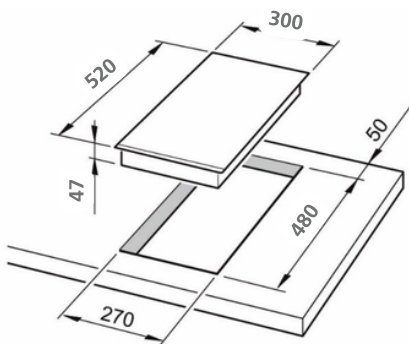

EIN 302
30CM INDUCTION HOB

2 Induction cooking zones:
190 x 210 mm

- Normal Power: 2100 W
- Booster Power: 2300 W
- Double Booster: 3000 W
- Bridge function: 3700 W.

Max. Power Management: 3700W / 16Amp

Colour: Black frameless glass

Dimensions

- Product size: W300 x D520 x H47mm
- Cut-out size: W270 x D480mm

EIN 603 XF
60CM INDUCTION HOB

3 Induction cooking zones:
Left (Front & Rear): 190 x 210 mm

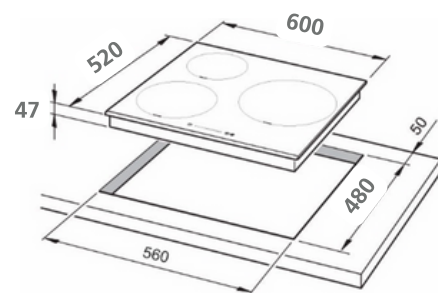

- Normal Power: 2100 W
- Booster Power: 2300 W
- Double Booster: 3000 W
- Bridge function: 3700 W

Right: Ø 250 mm

- Normal Power: 2300 W
- Booster Power: 3000 W

Max. Power Management: 6700W / 29Amp

Colour: Black frameless glass

Dimensions

- Product size: W600 x D520 x H47mm
- Cut-out size: W560 x D480mm

GAS HOBS FEATURES

MAX POWER

OUTER RING

INNER RING

TRIPLE RING

The burner with up to 3.8kW of power for cooking food rapidly without compromising its nutritional value. Heat is evenly distributed at the bottom of the pan, giving an excellent cooking performance over a shorter period of time, even in case of large and big pots.

DUAL BURNER

The dual burner offers high performances thanks to its independent fire crowns, generated by outer and inner rings. The dual burner is managed by two independent knobs for a minimum power of 0.8kW up to maximum of 4.2kW. This is the perfect for heating small pots at minimum power, and rapidly cooking food in big pot at maximum power.

FLAME FAILURE SAFETY DEVICE

Each of our hobs is equipped with safety device that automatically cuts off the gas supply to prevent any gas leakage in case of accidental extinguishing of the flame, because of the wind or overflow liquids.

CAST IRON

Cast iron pan supports enhance the style and the professional look of your hob, providing at the same time maximum stability to the pots and pans of any size. They are very easy to clean and durable.

GAS HOBS

ELIO 65-445D1
60CM GAS HOB

4 Gas burners

- 1 Triple ring burner - 3.65kW
- 2 Semi-rapid burner - 1.75kW
- 1 Auxiliary burner - 1.00kW

Total gas input 8.15kW

Voltage 220-240V 50/60Hz

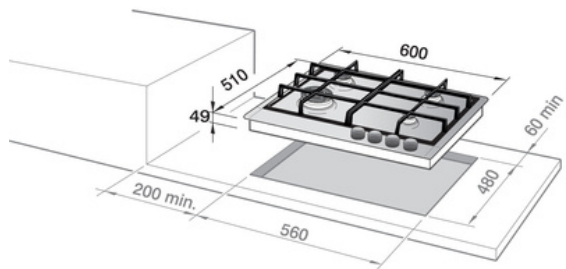

Electric ignition

With flame failure devices

Easy to reach front controls

Cast iron pan supports & wok stand

Colour: Stainless steel

Dimensions

- Product size: W600 x D510 x H49mm
- Cut-out size: W560 x D480mm

OVENS

FUNCTION SYMBOL

CONVECTION COOKING

For foods which require the same cooking temperature both internally and externally, i. e. roasts, spare ribs, meringue.

LOWER HEATING ELEMENT

To complete cooking of dishes that require higher temperature at the bottom.

UPPER HEATING ELEMENT

To complete cooking of dishes that require higher temperature at the top.

TRADITIONAL GRILLING

Intense grilling action for cooking with the broiler; browning, crisping, "au gratin", toasting.

VENTILATED GRILL

For grill cooking when a fast outside browning is necessary to keep the juices in, i. e. veal steak, steak, hamburger.

CONVECTION VENTILATION

For foods of large volume and quantity which require the same internal and external degree of cooking; for ex: rolled roasts, turkey, legs, cakes.

HOT AIR COOKING

For foods that must be well done on the outside and tender or rare on the inside, i. e. lamb, roast beef, whole fish.

DEFROSTING FROZEN FOODS

To rapidly defrost frozen foods by simple ventilation without heat.

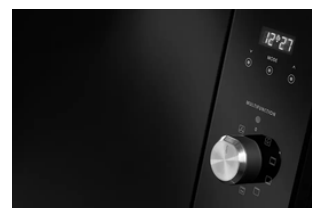

SHAPED SHELF

MAXI CAVITY

ROTISSERIE

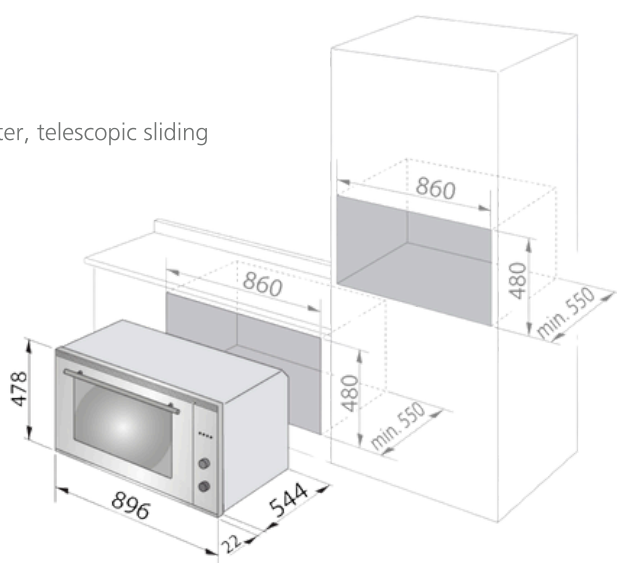

TOUCH CONTROL PROGRAMMER

ELIO 910 **90CM ELECTRIC MULTIFUNCTIONAL OVEN**

- 9 Functions
- 87 Litres Capacity
- Black glass design with premium grade solid stainless steel door handle
- Touch control programmer
- Cooling fan
- Easy removable door with soft closing hinge
- Easy clip removable inner glass
- Slide-out removable inner glass
- Easy to clean enamel coating
- Catalytic panels
- Oven accessories: Tray, shelf, shaped shelf, fat filter, telescopic sliding shelf supports, rotisserie kit
- Energy rating: A
- Power Consumption: 3050W
- Voltage: 220-240V/50Hz
- Colour: Stainless Steel, Black Glass

Dimensions

- Product size: W896 x H478 x D566mm
- Built-in: W860 x H480 x D550mm

XXL MAXI CAVITY

ELBA ovens offer 86L gross and 74L net capacity for spacious cooking.

7 LEVELS SIDE RACKS

Easier to remove, no screws. Enjoy more flexibility for your multilevels cooking.

TURBO-BOOSTER

Faster preheating of the cavity. The circular heating element, fan motor and upper heating elements are switched on altogether.

EASY STEAM

By evaporating water inside the oven, food tastes soft inside and crisp on the outside.

IDROCLEAN

Without using detergent, effectively remove the dirt inside the oven thanks to the moisture generated by the water warming at 80-90°C

ROTISSERIE

Allows for evenly roasted, succulent meats with a professional touch.

LEAVENING

Creates the ideal environment for dough to rise perfectly and consistently.
